New Cat Condos

Assembly Instructions

Premier Large Cat Play Tree
SKU: 110069

Package contents:

1 - Previously assembled stand

2 - Separate perches with pre-drilled screw holes

10- Packaged wood screws

Required tools:

1 - Power drill (a hand screwdriver can be used but is not recommended)

Follow these easy steps:

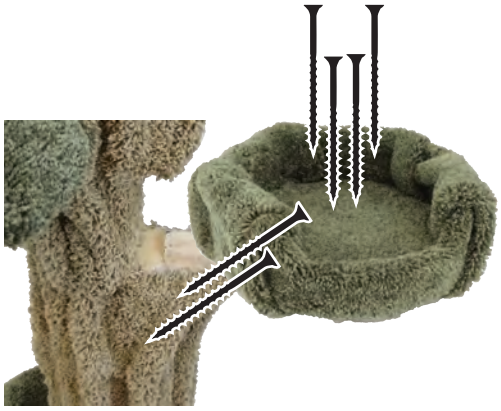
1. In a large, open area, open the box and remove all contents.

2. Place the larger perch with four screws attached on the tallest post. Be sure to line up the pre-drilled screws with the post.

3. Drill each screw into the post until they are flush against the bed and the bed is secure.

Manufactured by Cat Connection/New Cat Condos 23040 N. 11th Ave. Building 2, Suite #113, Phoenix, AZ 85027

4 Place the remaining perch to the right of the lower notch and slide into place (see illustration to the right).



5 Drill each screw into the post until they are flush against the bed and the bed is secure.

6 OPTIONAL: If you find the above method is difficult, you may use 2 inch or larger nails with flat tops (not included). Place them in the same positions as the screws and use a hammer to nail them down until they are flush with the surface of both perches.
